🔗 Ananthapavani

## Summary

---

Energetic and quick-learning student seeking a challenging intership to gain industry exposure, enhance problem-solving abilities and contribute positively to the team.

## Projects

---

### Pro Guide

- Many elderly users find online shopping overwhelming due to cluttered interfaces and too many options. Users don't need to open multiple tabs or websites—our interface shows the prices and discounts from different platforms in one place, making the process faster, simpler and less stressful.
- **Future scope:**
- Currently Pro Guide is an interface prototype. In the future, we aim to integrate real-time data fetching, smart filters, voice assistance, and accessibility features to make it even more useful for elderly users.
- Tools Used: HTML, CSS.

## Technical Skills

---

- **Programming Languages:** Java, Python, C, Data structure.
- **Web Technologies:** HTML, CSS.
- **DataBase:** SQL.

## Achievements

---

- Achieved 7-star badges in Java, Python, Problem-Solving, and C on [Hackathon](#) 🔗.
- Achieved Bronze Badge in Problem-Solver on [CodeChef](#) 🔗.

## Certifications

---

- Certified in HTML and CSS from Certiport IT Pearson.
- Certified in Python from CISCO.
- Certified in Data Structure and Algorithms from GreeksforGreeks.
- NPTEL Certification on Internet of Things.
- Java completion certificate from ORACLE.

## Education

---
